EXPERIENCE

February 2024 - May 2024

Kodnest Technologies, Bengaluru

Full stack Intern

Engineered a full-stack solution using Python, JavaScript, and SQL to automate data analysis, resulting in a 50% reduction in report preparation time. Collaborated on various projects, emphasizing adaptability to modern technologies.

Jun 2023-Sep 2023

AiLabs

Internship in Ai/ML

- Comprehensive Curriculum: The AI/ML course from Ailabs covers a wide range of topics, including data preprocessing, data cleaning, and machine learning algorithms. It provides both theoretical knowledge and practical hands-on experience through projects and case studies.
- Expert Instructors and Support: The course is taught by industry experts and experienced instructors who provide personalized guidance and support.

PROJECTS

2023

Personal Portfolio

- Design the portfolio layout using HTML.
- Apply CSS for aesthetics, including colors, fonts, and responsive design.
- Use JavaScript for dynamic elements like modals, sliders, and form validations. Sections: Include About Me, Projects, Skills, and Contact sections.
- Host the portfolio on GitHub.

2024

Highway Accident Data Analysis

- Collected data from sources to analyse and visualize accident types, location, seriousness, and time on the map.
- Team collaboration to access the resources.
- Results were achieved through teamwork and a strategic goal-oriented approach. Technologies used: Advance Excel, Power Query.
